

Silhouette Curio™

SILHOUETTE-CURIO-3T

The Silhouette Curio ™ hobby machine is the perfect complement to Silhouette's other cutting tools, the Silhouette Portrait® and the Silhouette CAMEO®. Simply connect Curio to your PC or Mac with the included USB cable and use the included software, Silhouette Studio®, to design your project. Then send your project to Curio to put your signature style on countless DIY projects. Curio is the perfect machine for DIYers that love to diversify their creativity. With Curio, you can:

- Create beautifully etched metal (Stippling & Etching tool sold separately)
- Embellish foils and metals with unique stipple patterns (Stippling & Etching tool sold separately)
- Sketch intricate, multicolor designs
- Create one-of-a-kind stippled ink projects
- Cut custom designs out of paper, cardstock, vellum, vinyl, fabric, stencil material, and more
- Cut or sketch fonts already installed on your computer
- Add embossing or debossing textures to soft papers, vellum, and other materials
- Use unique materials as project surfaces such as woods, canvases, metals, and more
- Register and cut printed materials using the Print & Cut feature

Silhouette Mint™

SILHOUETTE-MINT-EU

The Silhouette Mint™ is the most innovative and powerful custom stamping system on earth. The machine's special thermal printing ability lets you create 3D reliefs of custom designs on Mint stamp sheets. Simply apply Mint inks to your stamp and you are ready to roll. Stamp up to 50 times before reapplying your Mint ink. Design it, Mint it, Ink it, Stamp it.

The Mint system is driven by the powerful custom software, Mint Studio™ (included with purchase). The Mint allows you to create the perfect stamp by:

- Turning designs from Silhouette Design Store into stamps
- Turning text into a stamp using any font from your computer
- Creating your own design from within Mint Studio™
- Importing any image into Mint Studio[™] to create your stamp
- Turning a photo into an amazingly detailed stamp
- Combining any or all of these options to create whatever you can imagine

Silhouette CAMEO ®

SILHOUETTE-CAMEO-2-3T

The Silhouette CAMEO® is your standard in electronic cutting. Like a home printer, it plugs into your PC or Mac® with a simple USB cable. However, instead of printing it uses a small blade to cut paper, cardstock, vinyl, fabric, and other material up to 12 inches wide and 10 feet long.

Silhouette Portrait®

SILHOUETTE-PORTRAIT-3T

The Silhouette Portrait® is a smaller, lighter version of the Silhouette CAMEO® electronic cutting tool. Like the CAMEO, the Portrait connects to your computer, allowing you the freedom to cut all your fonts, download thousands of designs from the Silhouette Design Store, or create designs of your own with the included software.
